RETURN RECEIPT REQUESTED

ED & JANET KING
6305 FERN SPRING COVE
AUSTIN TX 78730

Dear Mr. and Mrs King:

On May 17, 1985 this office accepted a notice proposing road work at several sites on public lands in the Drum Mountains. The Notice was submitted by Dave Hartshorn and was serialized UT-056-38N. On July 15, 1987, a second notice was submitted by Mr. Hartshorn, which was serialized UT-056-59N. An inspection was conducted on this notice on October 2, 1987, during which several recent disturbances were documented. In 1992 a third notice, serialized UTU-070632, was submitted by Mr. Hartshorn; the first two notices were combined with it as all three notices had been submitted in the name of Jumbo Mining Company.

It has since come to our attention that Jumbo Mining Company was not incorporated until June 16, 1988, and that until that date you were doing business under that name. Therefore, you as individuals are responsible to reclaim all the mining related disturbances created by Jumbo Mining Company before June 16, 1988, and we have reserialized the first two notices as UTU-075874.

A field inspection was conducted in Section 7, T. 15 S., R. 10 W. on May 28, 1999, and several unreclaimed disturbances were documented. They include, but may not be limited to:

1. An unplugged drill hole directly to the north of the main Drum Mine entrance.
2. A cut on the hill about 300 yards to the north of the main Drum Mine entrance.

3. A cut in the side of a hill in the north central part of the section.
4. A cut in the side of a hill in the very northwest corner of the section.

We would like to meet with you or your representative at the sites of these and other disturbances that were created by Jumbo Mining Company before July 16, 1988, and form a reclamation plan and time frame for completing the work. Failure to submit an adequate reclamation plan within 30 days of receipt of this letter may result in the issuance of a Notice of Noncompliance. If you have any questions, please feel free to call me at (435) 743-3126.

Sincerely,

Ron Teseneer
Geologist
